

From first ever fossil found from Pakistan during early 2000 to so far about three thousand fossilized bones/ pieces of bones have been collected by Malkani from the latest Cretaceous (70-65 million years before) Vitakri member/Dinosaur beds of upper part of Pab Formation, Barkhan, Dera Bugti, Kohlu and Dera Ghazi Khan districts, Balochistan and Punjab provinces, Pakistan. So far the published research publications on dinosaurs and its community from Pakistan are;
